Aleksandr Garin

Front End Developer

PROFILE

Motivated individual with a strong work ethic and the ability to work independently or as part of a team. Accomplished in organizational awareness and an outstanding collaborator. Experienced in process improvement and driving efficiency. Passionate about software engineering and continually seeks to improve their own skill set in this area. Manages ongoing personal development through an advanced study ethic. Recognised as a high achiever and a deliverer of results. Ready to help the team achieve company goals.

Left Russia in 2020 as a refugee to avoid Religious Persecution by the Russian State. Had to leave behind own business that had been built successfully for 10 years and which was working with a range of private and company clients. Since being granted Permanent Residency in the UK, I have re-trained in Software Engineering and seek to build a new and successful career as a result.
